

Karting Game User Guide

A short guide to getting into a race, understanding the HUD, and finishing a match.

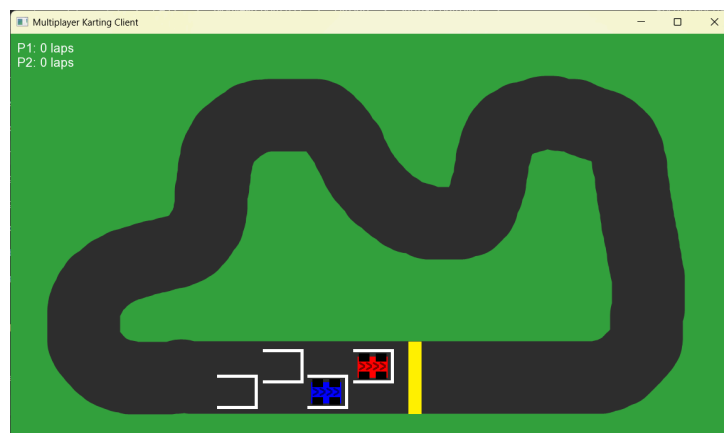

Start Screen

Karting game starting screen

- The title and player count are shown at the top.
- The player count shows how many clients are connected (e.g., "2 / 4").
- Select "Start Game" once all players have joined.

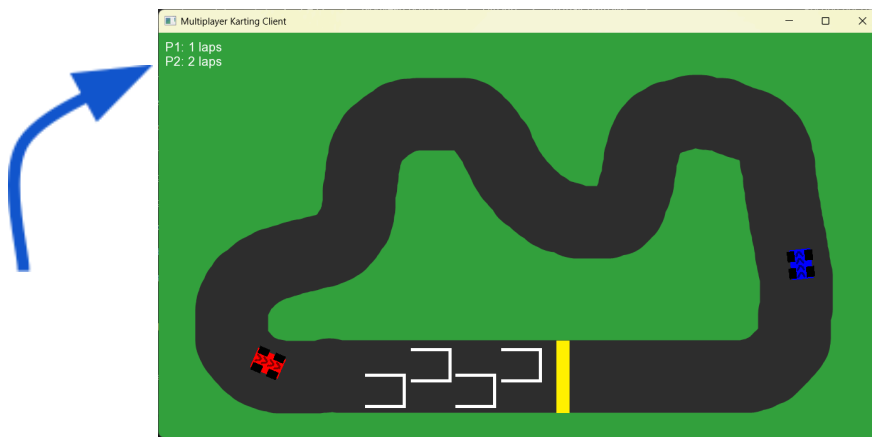

Race Start and Placement

Karting game race start

- The race begins with all karts placed on the starting grid.
- Each kart is color-coded to match the player.
- The yellow stripe marks the start/finish line.

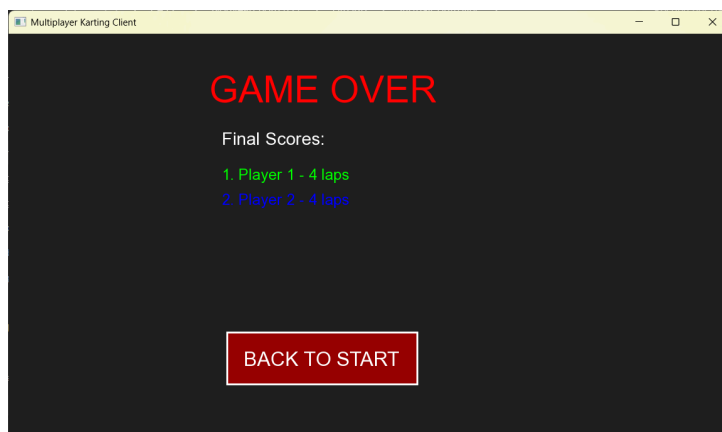

During the Race (Lap Counts)

Karting game race

- The top-left HUD shows lap progress per player.
- Laps increase as each kart crosses the start/finish line.
- The track boundaries keep karts on course; stay on the asphalt to maintain speed.

Finish Screen

Karting game end screen

- The "Game Over" screen lists final standings and lap totals.
- Use "Back to Start" to return to the lobby for another race.
